West Valley	.080	.080	n/a	<b>.080</b>	0.065

‡ Three-year averages are truncated to 3 decimal places, as regulations require. (A violation occurs if the 3-yr. avg. of 4th max. percentile values at a site reaches .075 ppm).

\* Violation levels are the 2008 8-hr. (4<sup>th</sup> max.) values (if reached during the 2008 ozone season) that could potentially cause a violation of the 3-yr. ozone standard.

New Ozone standard as of May 27, 2008
